

# URBAN TRANSPORTATION PLANNING

(Video Course under NPTEL)

**Course Faculty: Prof. V. Thamizh Arasan**

## **Questions for Self Evaluation**

### **MODULE 7: TRANSPORTATION SURVEYS**

1. List the points to be considered while (a) fixing the alignment for external cordon line and (b) zoning of an urban area.
2. Explain with the aid of a sketch, the process of dividing a large urban area into small land-use parcels.
3. A transportation survey needs to be conducted, with no disruption to traffic and with minimum requirement of resources, to decide about the requirement of bypass road for a city. Explain the method of conduct of such a survey.
4. Give a typical questionnaire for Household Survey.
5. Explain with the aid of a sketch, the road side interview survey.
